

# Building Learning Power Policy

## “HELPING OUR CHILDREN TO BECOME SUCCESSFUL LEARNERS”

At Kenmore Park Infant and Nursery School we believe in developing our children’s learning power so that they become resilient, resourceful and reflective learners who are confident to take risks and who develop strong positive relationships to support their own learning. Through these dispositions of an effective learners at KPINS ALL children will have the capacity for greater success in reaching their full potential as learners.

We teach the principles of **Building Learning Power (BLP)** and in order to encourage learning, we have planned a programme of skills to support our curriculum work. We talk frequently about the learning process, linking it to real life situations. We refer to learning skills as learning dispositions.

### Article 28

You have the right to a good quality education.

You should be encouraged to go to school to the highest level you can.

There are four main LEARNING dispositions

- Resilience - the ability to keep trying
- Reflectiveness -the ability to think about what you have learnt
- Reciprocity (working together) -the ability to work on your own and with others
- Resourcefulness- the ability to use what you know already know to help you learn.

Staff promote learning power though:

- What they value and discuss with their children (Explaining)
- How they talk to groups and individuals about their learning experiences and achievements (Commenting)
- The activities they select (Orchestrating)
- What they themselves model about learning (Modelling)

Staff need to support and encourage children to be able independently to:

- Know what’s worth learning
- Know what they are good at learning
- Know who can help
- Know how to face confusion/dilemma
- Know the best learning tool for the job

Key skills need constant practice so that they become a habit and can be applied in all aspects of the child’s life.

### Article 29

Your education should help you use and develop your talents and abilities. It should also help you learn to live peacefully, protect the environment and respect other people.

### Resources

Each of the four BLP areas is represented by a different animal puppet. Each class has a set of the four animals puppets. They each have unique animal characteristics which relate to each of the four BLP areas. These soft puppets can be used to support children's learning in lessons across the curriculum where appropriate.

RESILIENCE – Tough Tortoise  
RESOURCEFULNESS – Sensible Squirrel  
REFLECTIVENESS – Wise Owl  
RECIPROCITY – Team Ant

Stickers representing the four animals are issued to the learners as a visual representation to the children when they have demonstrated application of one or more of the dispositions to support their learning. They are also used as a means for developing the language of the dispositions by the learners, so that they can talk about learners and the way in which the dispositions have supported their learning and progress.
